## **Boss SL-300 M2 Moulding Sander** **Suitable for Out feed of Moulding Machines**

### **Features:**

- The main frame is fabricated and ribbed of heavy steel plate to minimize vibration and deflection.
- All operating push control buttons are centralized in a convenient control box. They are large, clearly identified and colour coded which simplify set up and start up.
- Roller table 700mm x 380mm, working height 780 - 950mm, is variable to install at end of conveyor of moulding machine.
- The speed of all brushing heads can be adjusted by inverter. Working height can be adjusted by hand wheel.
- The sanding head is variable to adjust vertically or horizontally.
- Brushing head is combined with cleaning brush units and abrasive cloth units. It is designed for easy replacement.
